

To whom it may concern

K. Aom Weeraya has worked with me at PPCnSEO (Voova Group). She has done such a great job at her role .She started as Graphic designer then became UX/UI designer as she has shown her potential in the design field and how she's capable of the role. She always impresses me with the great design for our software and I know I can rely on her to get a good design from her work.

Chidchanok Lauhateeranon
Chief Technology Officer , PPCnSEO Co., Ltd.
Office : yui@voovagroup.com
Personal : chidiin.lau@gmail.com

I have worked with Aom for over 4 years in ProperDee, and I can say I have enjoyed it a lot.

I was the Technical Architect in the team while she was the UX/UI designer, and we have worked very closely.

She is not just a great, easy and honest person, but also an amazing professional. Always taking care about the details and the functional workflows of every design, keeping all parts involved. She can easily handle technical and functional talks with both the technical and the business teams.

She was very engaged with the projects and the company and played a very important role in our whole development cycle.

Luis Mirandasolari
Technical Architect

I am living in Belgium if you want any confirm about Aom please send me an email:
